## Letter from Founder/President

**HER EMPACT** is a private sector global platform for Christian women founded by Dr. Cheryl A. Hill in May 2023 in support of the United Nations Millennium Development Goals and “Every Woman, Every Child”, an initiative of the UN that builds upon the core leadership principles of the 4Es: Educate, Empower, Enhance and Enrich, and activates partnerships, economic and social development activities to preserve culture and empower women.

Our mission is to promote strategic trainings, engagements, and positive social change to harness the power of business/leadership development, governmental positioning, arts & entertainment and agribusiness by implementing creative strategies for sustainable economic growth and independence of communities worldwide, through the expression of “exclusive networking and partnerships.”

HER EMPACT intentionally designs intimate gatherings of influential female figures committed to making a difference to the lives of women, girls, their communities, and nations, through an exchange of creative ideas, resources and partnerships.

**We convene** influential women from diplomatic, political, academic, business, philanthropic and entertainment spheres, around key global issues.

HER EMPACT features leading-edge discussions, networking and skill-building focused on developing and celebrating female leaders making short-term and long-term impact.

We make room for emerging leaders, forging new connections, and creating platforms to hear and to become involved with :

- Conversations and skill-building workshops on topics including inclusivity and belonging, engaging in critical conversations, and navigating ethical dilemmas.
- Industry-focused workshops including experts from tech, agriculture/textile, media, venture capital/private equity, and entrepreneurship fields.
- Hear from expert leaders—discovering your relevance, purpose of leading from the heart.
- Structured networking opportunities to buy from within our network.
- Community Reinvestment projects—projects will be implemented according to the needs of the community in which our members will work.
- We support the UN Sustainable Development Goals across all our platforms.

**Welcome,**  
*Dr. Cheryl A. Hill*
